

Our Green Schools Water Action Day

Unveiling the Water Mural

We unveiled our water mural 'Save Water, Save Earth'. The mural incorporates both the theme of Litter & Waste and Water from the Green Schools project. The children worked incredibly hard on this and we are delighted with the end product.

Assembly

The Green Schools committee deliver an assembly to the school about why and how we should conserve water. Everybody wore blue to the assembly and donated a coin. €450 was raised for the charity 'Bóthar' to buy nine water filtration systems.

Our Green Schools Water Action Day

The H₂O Show

The H₂O singing competition was a singing competition the school ran on the day. Classes chose well known songs and changed the lyrics to promote awareness about the importance of saving water.

The Judges

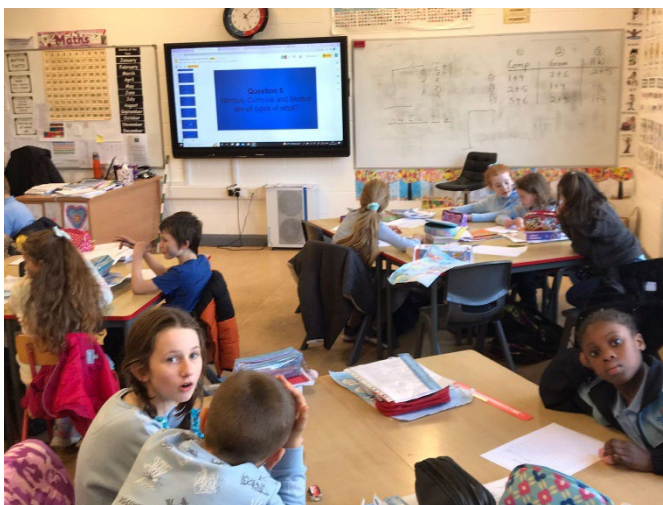

Our Green Schools Water Action Day

The Winners

Water Table Quiz

Each class took part in a table quiz where all the questions were based around the theme of 'Water'.

The Eco Car Wash

Eight teams took on the task of washing eight cars with just 6L of water. This is quite a miniscule amount of water as a car wash uses 144L of water per car. The best washed car received a prize of no homework for a week. The children had great fun with this and it got very competitive. They did an amazing job with such little water.
